## CONTENTS

Radial distribution function of natural fibres and synthetic water soluble polymers using X-ray diffraction G Thejas Urs, M B Nanda Prakash, H T Ananda & R Somashekar	9
Morphological and thermal properties of optimized electrospun cellulose acetate nanofibres during deacetylation in different pH values Payam Zahedi, Ayda Rafie & Edyta Wojczak	13
Prediction of polyester/cotton blended rotor-spun yarns hairiness based on the machine parameters Vahid Ghorbani, Morteza Vadood & Majid Safar Johari	19
Spinnability of cotton/milkweed blends on ring, compact and rotor spinning systems T Karthik & R Murugan	26
Prediction of fabric hand characteristics using extraction principle Apurba Das, Abhijit Majumdar & Sukumar Roy	33
Preparation and properties of a washable flame-retardant coated fabric Qiang-Lin Li, Fang-Qian Huang, Xue-Jun Jiang, De Wen, Xi-Ning Feng & Kai Wu	40
Effect of linear density of feed yarn filaments and air-jet texturing process variables on compressional properties of woven fabrics R KBaldua, R S Rengasamy & V K Kothari	47
<i>Ex-situ</i> and <i>in-situ</i> post-photosynthesis of silver nanoparticles on polyamide fabric using daylight irradiation Vahid Babaahmadi, Majid Montazer & Tayebbeh Toliyat	55
Filtration properties of staple fibre thermo-bonded nonwoven fabrics D Kalaivani, S Arun Karthick & N Gobi	62
Predicting hydrophobicity of silica sol-gel coated dyed cotton fabric by artificial neural network and regression Samander Ali Malik, Sidra Saleemi & Naveed Mengal	67
Optimization of sizing parameters with taguchi method Emel Ceyhun Sabir & Çiğdem Sarpkaya	73

Laser eco-printing technology for silk fabric patterns Jinxiang Chen, Chuang Meng, Juan Xie, Le Pan, Dong Zhou & JunNan Chen	78
Dope dyeing of polyacrylonitrile filaments with Ratanjot Roli Purwar, Priyadarshan Sahoo, Mehak Jain, Urvashi Bothra, Priya Yadav, Jigyasu Juneja & Chandra Mohan Srivastava	84
<b>Short Communications</b>	
Stabilised blending delay time in blowroom multimixer Abhijit Majumdar	89
Impact of high temperature and pressure on sericin scouring of muga silk cocoons Manasee Choudhury & Dipali Devi	93
Pilling evaluation of patterned fabrics based on a gradient field method Lenka Techniková, Maroš Tunák & Jiří Janáček	97
Colour effect on fibre diameter measurement with OFDA 2000 Q Li, P R Brady, C J Hurren & X G Wang	102
<b>Book Review</b>	
Handbook of fluorescent dyes and probes by R W Sabnis; reviewed by Deepti Gupta	107
